SUMATHI A

Freelance Trainer

PROFESSIONAL SUMMARY

Freelance technical trainer with 6 months of experience teaching C programming fundamentals to students and beginners, alongside hands-on experience as a full stack developer building responsive, database-driven web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled at explaining core programming and problem-solving concepts in a clear, structured way, designing practical coding exercises, and guiding learners through debugging and logic-building. Brings real-world development experience across e-commerce, travel, and content platforms into training sessions, helping learners connect fundamentals to practical application.

TECHNICAL SKILLS

- Programming Languages: C, JavaScript
- Frontend: React.js, HTML5, CSS3, React Router, Responsive Design
- Backend: Node.js, Express.js, REST APIs, Authentication, CRUD Operations
- Databases: MongoDB, Mongoose, PostgreSQL, Neon
- Training & Delivery: Curriculum planning, hands-on lab sessions, code reviews, doubt-clearing
- Tools & Deployment: Git, GitHub, VS Code, Chrome DevTools, Netlify, Render

EXPERIENCE

Freelance Trainer – C Programming | Self-employed

Mar 2026 – Present (6 months)

- Delivered one-on-one and small-group C programming training to students and beginners, covering syntax, data structures, pointers, and file handling.
- Designed lesson plans, coding exercises, and mini-projects to reinforce core programming concepts.
- Reviewed learner code, identified logic and syntax errors, and provided structured debugging guidance.
- Tracked individual learner progress and adapted teaching pace and material to different skill levels.

Junior Web Developer | Atriowings, Chennai

Jun 2026 – Aug 2026

Developed and enhanced responsive web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, and PostgreSQL across e-commerce, travel, and content projects. Built customer, admin, and seller workflows with REST API integration, authentication, CRUD operations, database-driven features, and responsive UI components. Integrated Razorpay, Cloudinary, and SMTP, while handling debugging, API testing, end-to-end testing, Git-based development, and deployment support.

SELECTED PROJECTS

MithraShoppy — Multi-Vendor E-Commerce Platform

- Developed a multi-vendor e-commerce ecosystem with separate customer, admin, and seller experiences using React.js, Node.js, Express.js, MongoDB, and REST APIs.
- Implemented vendor registration, product and order management, seller dashboard, payment-status workflows, reviews, customer ratings, and the Lucky Charm feature; integrated Cloudinary for media management.

Happy Sarees — Saree E-Commerce Platform

- Built a responsive saree e-commerce platform with customer storefront, admin dashboard, and seller portal using React.js, Node.js, Express.js, and PostgreSQL/Neon.

- Implemented saree product workflows including the Saree Grown feature, seller product management, checkout, and order handling; integrated Razorpay online and UPI QR payments.

Hasslefree Travel — Visa Management Platform

- Developed visa application and tracking workflows connecting user-facing interfaces with administrative operations and database-driven functionality.
- Built an admin billing module with invoice creation, CGST/SGST calculations, invoice numbering, payment status, PDF generation, and dynamic Excel export.

Health Ghuru — Health & Fitness Content Platform

- Developed responsive editorial interfaces for health and fitness articles and videos with structured navigation, content sections, and advertisement placements.
- Improved reusable React components, responsive layouts, content presentation, and overall UI consistency based on project requirements.

Print Module — Full Stack Print Order Management System

- Built PDF upload and print-order workflows with automatic page-count detection, print options, copy management, and dynamic pricing using JavaScript, Node.js, Express.js, and PDF.js.

Smurfy Rock Paper Scissors — Interactive Web Game

- Developed a responsive JavaScript game featuring dynamic game states, countdowns, animations, localStorage scoring, and pause, resume, and restart controls.

EDUCATION

B.E. Computer Science and Engineering | Bharath Niketan Engineering College

2022 – 2026 | CGPA: 8.00

Higher Secondary Education: Z.K.M. Higher Secondary School, Bodinayakanur — HSC: 70%

Secondary Education: Z.K.M. Higher Secondary School, Bodinayakanur — SSLC: 81%

INTERNSHIP

Full Stack Web Development Intern | Right UpNext Innovations

Jul 2025 – Aug 2025

30-day internship focused on full-stack web development using HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, responsive design, and real-world application workflows.
